A SOCIAL ENTERPRISE OF NEW MOMS

Product Catalog

JOIN US

As a social enterprise of Chicago nonprofit New Moms, Bright Endeavors proceeds support New Moms' nonprofit programs providing housing, job training, college success, and family support for young moms facing barriers caused by systemic poverty.

Bright Endeavors is where New Moms' mission truly shines. Young moms in the program are learning comprehensive skills, gaining confidence, and forging their career paths through integrated classroom training and on-the-job experience. Participants are paid throughout the program and practice their skills in a safe and supportive environment that prepares them for external employment.

Join us as we work together to build a world where every young family thrives.
